GREAT MEDICAL DISCOVERY! WiTH such testimony, no stronger proof can be given, unless it be trial of this wenderful Hampton's Vegetable Tinoture.

table Tineture.

Let the afflicted read! read!

BARNELIVILE, ALLEGANY COUNTY, (Md.,)

May 4, 1852.

To Messrs. Mortimer & Mowbray.

DEAR SIRS: In justice to Dr. Hampton's Vegetable Tineture, I wish to laform you that I was taken sick on the 3d day of January last, with an affection of the stomach, bowels, and kidneys. I was attended by four eminent physicans for more than two months—all to little or no effect. I had some knowledge of the great virtue in Hampton's Tineture from one bottle which my wife had taken two years since.

ture from one bottle which my wife had taken two years in se.

I came to the conclusion that I would take no more medicine from my physicians, but try the Tincture; and I am happy to inform you I had not taken it two days before I felt its powerful influence upon my stomach. I have continued using the Tincture, and am now able to leave my room, and can eat any common diet without much inconvenience or pressure on my stomach.

The afflicted or their friends are daily visiting me, to learn of the great virtue there is in this Tincture of Hampton's.

I expect to send you several certificates in a few days—one especially from a young lady who has been confined to her room twelve mouths, with a disease of the head, affecting the brain.

Respectfully yours,

E. W. HALL.

On the permancy of the cure hear him. Still another left.

On the permancy of the cure hear him. Still another let-er from the above!

ter from the above!

BARRELLVILLE, ALLEGANY COUNTY, (Md.,)
October 13, 1852.

Messrs. Mortimer & Mowbray:
DEAR Sins: I am happy to inform you that this day finds me in the enjoyment of good health, by the use of your Hampton's Tincture and the blessing of God. I am enabled to pursue my daily avocations as usual, and I have a great desire that the sflicted should know the great curative powers of the Tincture.

I am with respect, yours,

E. W. HALL.

THE ALMOST MIRACULOUS CURES made by Hampton's Vegetable Tincture on our most respectable citizens—men well known and tried—we challenge the world to show anything on record in medicine to equal it. Many hundreds who have felt its healing powers bear the same testimony.

hundreds who have fell its healing powers bear the same testimony.

Baltimore, July 6, 1852.

Messre. Mortimer & Mowbray: Gents: Last September I was attacked with erystpelas, from which a dreadful ulcer formed on my right leg. Getting better of this, last November I took a deep cold, which led to what my physician told me was billous pleurisy, which left me with a constant, deeply seated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaclated, growing weaker every day, and keeping my bed the greater part of the time. My friends thought I had the consumption, and at times I was also of the same opinion. At this stage of my disease, after having tried many and various remedies, without success, a friend advised me to try DR. HAMPTON'S VEGETABLE TINC-TURE, and procured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had taken halt the contents of one bottle I felt much improved; and now, having taken but two bottles, my cough and pains have envirely left me, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now enjoy by the use of this most invaluable medicine.

Yours

WESLEY ROCK,

Truth stranger than Fiction !- None need despair !-A Lady's Testimony after thirty-eight years of suffering!

of suffering!

Were there not real crue in this wonderful medicine, could it perform the astonishing cures made by it?

Normanton Co., April 13, 1852.

Messra. Tyler & Adair: I have been afflicted with Rheumatism, at times, from my twelfth year; I will be fifty years of age the 18th of this month; the attacks were at times so severe as to render me helpless; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night; I could not rest, day or night; I could not rest, day and hips; I could not rest, day as a last advised to try HAMPTON'S VEGETABLE TINCTURE; heafors I had taken one bottle of which I felt much better, and as I continued taking it I felt strength coming into my back and limbs, and my stomach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I med it, and would recommend it to the afflicted, believing it unequalled.

ELIZABETH BAGWELL.

REV. VERNON ESKRIDGE, U. S. N.

REV. VERNON ESKRIDGE, U. S. N.

Portsmouth, (Va.,) Aug. 18, 1851.

Mr. J. E. Boush.—Dear Sir: While I am in general opposed to Patent Medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in 109 family, and in Dyspepsia, loss of appetite, diztinose, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours,

Chaplain in the U. S. Navy.

HAMPTON'S VEGETABLE TINCTURE, by its mild action on the Stomach, Liver, and the Kidneys, will cure Dyspepsia, Cough, Asthma, Bronchial and Lung Affections; Pains in the Back, Side, and Breast; Consumption, Scrofula, Rheumatism, Gout, Neuralgia, Fistula, Piles, Bowel Complaints, Worms, Nervous Debility—with all diseases arising from impure blood, and is the greatest Female Medicine ever known.

For Cholera Norbus, Cholic, Diarrhora, and all diseases incident to the bowels in the summer season, it has no equal.

equal.

MACHINE FOR CRUSHING, GRINDING, AND PULVERIZING.

Recently Patented in this Country and Europe.

COCHRAN'S PLANOSPHERICAL QUARTE CRUSHING AND PULinspection of the public, and will be submitted to any ressonable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their
durability, the undoubted principles upon which they operate, their effective operation and result, are justly emittled
to the consideration of all parties engaged in grinding,
crushing, and Pulverising Quartz, Iron Ore, Zine, Copper,
and Lead Ores, and all other Ores or Mineral substances.

It is the peculiar feature of the economy of these machines that they are found capable of crushing and pulverizing into the finest powder any amount of Quarts or other
earthy matter, in proportion to the amount of weight or
power applied. The earthy matter is so completely ground
and pulverized, that the Gold may be easily separated, and
subjected to any process of smalgamation that may be necessary.

The machines work and deliver wet or dry, as may be re-

subjected to any process of amaigamation that may be ne-cessary.

The machines work and deliver wet or dry, as may be re-quired, and run with little friction, (being almost without machinery,) requiring no lubricating; the principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being put werized. They are at once applicable for all purposes of grinding and pulverizing, from those required by the Drug-gist to those of the most extensive operations in California and Australia.

each, and are sold, with the right to use them, at from \$100 to \$5,000 each.

They can be worked by steam, water, horse or manual power, according to their size; and by changing the velocity and proportioning the weight on the top of the balls, any decired amount of power may be used, from that of a man or horse upwarf.

The proprietors of this invention solicit examination, and will prove by practical tests the east superiority and economy of these machines over any other, for crushing, grinding, or pulverizing, heretofore effered to the public.

These machines may be seen in operation at the foot of South Eighth Street, Williamsburgh, at the large Patent Block and Saw Factory of Messrs, Burr, Waterman & Co, first street south of Peck Slip Ferry, every day, from 7 to 9 a.m., and from 4 to 6 p. m. For further particulars, apply to ag 23—2w 32 Cliff street, New York.

Mechanics, Manufacturers, and Inventors.

THE Eighth Volume of the SCIENTIFIC AMERICAN commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminently calculated to advance the great interests of industry—Mechanical, Manufacturing and Agricultural—the gegius and master-spirit of the nation.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

the genius and master-spirit of the nation.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

The publishers pledge themselves that the future volumes shall at least equal, if not surpass their predecessors. Among the subjects chiefly brought forward and discussed in its columns, are Civil Engineering, Architesture, Railroads, Bridges, Arricultural Implements, Manufactures of Metals, Fibrous and Taxtile Substances, Machinery for the purpose, Chemical processes, Distilling, Coloring, &c., Steam and Gas Engines, Boilers and Furnaces, Mathematical, Philosophical and Optical Instruments, Cars, Carriages, Water-Wheels, Wind and Grinding Mills' Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, Fire Arms, Electricity, Telegraphs, Surgical Instruments, &c., besides Claims of all Patents, Raylews, Notices of New Inventions, American and Foreign. The work is in form for binding, contains several hundred Engfavings, over four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are Illustrated with Engravings in its columns, thus making the paper a perfect Mechanical Encyclopedia for future as well as present reference.

Valuable Premiums are offered for the largest list of Subscribers to this Volume. It is published weekly by MUNN & CO., at their Patent Agency Office, 128 Fulton street, New York.

TERMS-ALWAYS IN ADVANCE. 

KRAUSER'S PATENT CLOVER-SEED HAR-KRAUSER'S PATENT CLOVER-SEED HARVESTER

IS BEFORE THE PUBLIC FOR THE FIRST TIME
ITS utility is beyond comparison with any other farming
implement now in use. It takes the seed from the field,
leaving the straw or grass all standing. It weighs two hundred and fifty pounds, is drawn by one horse, and gathers
from ien to twelve acrea per day. The fingers, or teeth,
catch all the heads, the revolving knives cut them off and
throw them back into the box, which will cross a twentyacre field without emptying. The heads are then loaded
into a wagon and taken directly to the mill for cleaning,
thus diminishing the labor three-fourths, and saving all the
reed. This machine comes so low that every farmer will
have it, and pays the manufacturer 300 per cent.

E. WHEELER, Agent for Washington.

CROSS KEYS, WASHINGTON TOWNSHIP, CAMDEN CO., N. J.,

We, the undersigned, do certify that we have seen Mr.

Krauser's Patent Clover Harvester in operation, and it has
given perfect satisfaction. It has gathered many of the
farmers' clover in this neighborhood—it is all that Mr. Krauser and his bills represent it to be. The farmers have given
one-half for gathering and threshing.

JAMES D. THOMERMAN,

WILLIAM P. GARWOOD,

WM. C. NICHOLSON,

JAMES G. COCK,

JAMES B. COCK,

JAMES B. COCK,

JAMES BRYSON,

CRARLES LEWIS,

TEOMAS TURBLISSON,

Long-a-Coming, October 7, 1851.

This is to certify that Mr. G. J. Naylor has gathered clover off of a sixteen-acre field of mine, which has been pastured two months with ten head of cattle, and it produced six bushels and a half and one peck of seed. I gave him two thirds for gathering and cleaning. I think his machine is first-rate, and answers all the purpose that is intended.

NEHEMIAH NICHOLSON.

The following points out the profitable nature of the Harvester:

Cost of harvesting, &c., 1,000 acres... 

have found them to agree unanimously with the active calculation.

Perhaps no invention offers greater inducements for a profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum of money could without doubt be realized from the sale of rights in the different States of the Union not yet disposed of. By calling at this office, it can be demonstrated astisfactorily that men of moderate capital could not choose a better or more money-paying business.

Those who wish to see a model of this celebrated farming implement, and the satisfactory manner in which it operates, can do so by calling at

E. WHEELER'S,

Opposite Browns' Hotel.

N. B.—The subscriber has purchased the right for Montgomery county, Maryland.

Transition Coal.

THIS rare and valuable Coal is a variety no changed into an authracite, and it has only be Tills rare and valuable Coal is a variety not quite changed into an anthracite, and it has only been discovered (in large quantities) at three places upon our globe, vis: at South Wales, Great Britain; at Donetz, in Russis, near the Black Sea; and at Dauphin and Lebanon counties, Pennsylvania. In the London market this coal commands the highest price. It is now mined upon the large catate (43,000 acress) of the Dauphin and Susquehanna Coal Company, situated in Pennsylvania, and it is nearer to the cities of Baltimore and Washington than the coal of any ofher region. For easy ignition, durability of fire, complete combustion, easy adaptation to the temperature of the weather, and its great power in generating heat, it is the user coal in the world. It has the inflammability of the bituminous coal, with the cleanliness of the anthracite, and a greater durability than either. It burns without making any soot or visible smoke, and the combustion is so complete that it retains the fire until all the coal is consumed. Not so with the anthracites, especially the hard and heavy kinds. They do not burn up, and hence the common troublesome practice of sifting their sahes to obtain more fuel. In burning the Transition Coal there is no weats, for the small coals made by handling, burn as well as ordinary coal. All should be burned together. If screened at all the dust only should be taken out.

burnet together. If screened at all the dust only should be taken out.

A very erroneous impression exists with many persons that the heaviest coals are the most economical for ordinary purposes. This might be the case if coals were sold by measurement, but never when they are sold by weight. In Taylor's valuable work, (Statistics of Coal,) the details are given to show that 31 pounds of a free-burning red sah yielded more best to a room in 15 hours, than 37 pounds of a heavy white ash coal, making the red ash, at \$5 50, to be more economical than the white sah at \$4 61 per ton. Any person accustomed to use these heavy coals will be astonished at the saving which can be made in burning the lighter kinds, when tested by the weight and burnt in a suitable manner.

indee at the saving when can be made in ourming the ingite raining, when tested by the weight and burnt in a suitable manner.

An apprehension exists with some that the free-burning coals have a tendency to clinker. Now, as a general rule, no coal will clinker unless a greater draught be applied to it than the coal asturally requires. No one would think of applying a bellows constantly to a fire made of seasoned hickory or oak wood, and it would be equally as absurd to apply: a blast constantly to a free-burning coal. But the heavy white she anthracties cannot be burnt without a powerful draft, and without using a larger quantity of coal than the temperature of the weather sometimes requires. Verious patterns of stoves, furnaces, cooking ranges, &c., are invented annually to conquer this difficulty, but it has never been done with complete success. In every contrivance, however, which has been invented to burn coal, the transition variety will make a beautiful fire, and no complaint will ever be made to a manufacturer or celler of grates or stoves when this coal is used. The draft alone is to be requisted by a damper. In introducing this new coal for the first time, prepared as it now is by steam power machinery for domestic use, it may give greater confidence to the buyer to say that the celebrated free-burning red eah weins in the Peach Orchard district, near Pottsville, are a continuation of the Duspris veins, and they approach the nearest in value to the Transition coal.

Shipments of the Transition coal have already been made

to the District of Columbia, and it can be considered from the following persons:

Wm. T. Dove, Washington.

F. Magruder, do Wyers & Baker, Georgetown.
Orders for this coal by the cargo, as well as for the semibituminous and anthracite coals, mined by the Dauphin and
Susquehanna Coal Cempany, will be promptly executed by

DENTISTRY.

DENTISTRY.

DR. CASADAVANT, Surgeon Dentist, formerly from Paris and New York, returns his a neere thanks to the citizens of Washington and Georgetown and vicinities for the liberal patronage which they have extended of a since he has established himself in this city, and would inform them that he has removed to Lane & Tucker's building, on Pennsylvania avenue, between the National Hotel and 4½ street, where he still continues to perform all operations in his profession in a superior manuer, at New York prices, so as to enable all to test his skill, and he warrants his work to be equal to that of the best Dentists. As he manufactures his own artificial teeth, he is enabled to suit all cases, and will undertake to perform all those operations in which other Dentists have falled to succeed. He will refer to many citizens of Washington and Georgetown, for whom he has performed operations.

Protection from Lightning.

Protection from Lightning.

THE undersigned, being the duly appointed Agent of SPRATT'S ELECTRICAN AND ELECTRO-METALLUNGIST LIGHTNING-ROD MANUTACTORY, COVINGTON, RENTUCKY, begs to offer these superior Rods, of Spiral-twisted, Carbonized Annealed Iron, with Zinc Protectors, and Electro-positive elements combined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately-fitted brass-screw connecting joints, an suffer new style of metallic (patented) attachments, for brick or frame buildings; also, glass isolaters, of a novel and ingenious construction, (patented,) forming a lock; the whole mounted with a solid platinum silver point, (patented,) twelve inches long, surrounded at the base with three angular negative magnets, which possess the power, to an extraordinary extent, of discharging the opposite elements of the most fearful thunderstorm, and embrace the entire perfection of science up to the present time; the whole constituting the most magnificent and perfect silent conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such low rates; the greatest attention has been given to their construction, so as to be readily attached. The astonishing power of the negative magnets, in discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but, slight results, though placed under the same conditions. In fact, they gather and sliently discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but, slight results, though placed under the same conditions. In fact, they gather and sliently discharging the air of its opposite of these who are not authorized, or who are substituting inferior imitations. All sgeuts duly appointed can show their certificates. Have good rods or none.

CHARLES W. HEYDON,

Vashington City.

THE ENGLISH VERMIN-DESTROYER,

Warranted superior to any other, in use for destroying Roaches, Ants, Bedbugs, Fleas, And all kinds of Bugs and Worms.

THIS article, being in a liquid form, can be easily applied to Bedsteads, or wherever it is required, with a feather or brush, leaving no disagreeable smell whatever in the rooms—which renders this article more desirable in use, as well as superior to any other.

Wainacots, Bedsteads, Fireplaces, de., anointed with this article, will ever after be cleansed of Bugs or Worms, as it is so strong and poisonous to these noxious animals as to cause them to fall dead from Bedsteads, &c., when running over parts where this Liquid has once been applied. This is also one of the best articles ever introduced into this country for destroying

Worms And Innered the property of the least of the land.

A BOOK FOR THE TIMES.

A BOOK FOR THE TIMES.

HELPS to a : if so of Holiness and Usefulness, or Caughey's Revival Miscellanies. The demand for this book is almost unprecedented in the history of Methodist publications. Six thousand copies have been sold in about four months. The seventh thousand is now ready. Read these notices of its character: "These sermons are admirably fitted for producing effect, immediate, powerful effect, upon the popular mind. Brief, hitting, bold, subjective; abounding in anecote, illustration, pathos; never prosy; never halting for a moment in confident persussion that sinners are to be converted by the truth they press home. " " We unbesitatingly recommend the circulation of this book."—Rev. Dr. Wightman, Ed. S. C. Advocate.

Ed. S. G. Advocate.

"It is a good work, and all that have bought it say so.
One \* \* \* very good brother said, after reading the sermon
on the 'Omnipotence of Faith,' that it gave him more of an
insight of faith than anything he ever read or heard. A
Baptist minister purchased a copy, and was carried away
with the spirit of the work."—Rev. Theodore Hill, of the Maire Conference.
"I like Revival Miscellanies very much. It will do good in the church."—Rev. G. M. Curpenter, of Providence Con-

"remot."

'I have read the book, and am not only delighted, but feel that I am a better man. All who have read it are greatly pleased."—Rev. T. Sullins, of the Holston Conference.

"This book has been a great blessing to my soul. It has fired up my zeal, and I feel like working for the Lord as I never did before."—Rev. J. H. Montgomery, of Alabama.

"We shoul!" hardly think it possible for any Christian to read this volume without partaking largely of that holy unction which breathes and burns on every page."—Rev. Richard Donkersley, of the Providence Conference.

sep 29

GRAY & BALLANTYNE, 7th st.

I do hereby certify that I have applied various powerful chemical re-agents to Spratt's Patent Points for Lightning-Rods, and that the results of these experiments convince me that they will resist the action of atmospheric causes, and thereby preserve the extremity sharp—a condition most essential to protection against lightning. The re-agents used in the above experiments were a solution of chloride of so dium, (common salt,) acette acid, sulphuric scid, and hydrochloric acid. With the first, there was no action on the metal; with the several acids, there was very slight—a fact sufficient to show that atmospheric influences would have no sensible effect.

JOHN LECONTE, Prof. of Nat. Phil. et Chem.
UNIVERSITY of GA., October 8, 1850.

The Lightning Conductors of Mt. Stratt, offered to me.

are the best 1 have ever seen.

It is to be hoped that the use of these Rods may become general, as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

R. SILIMAN, Jr.,
Prof. of Chem, in the University of Louisville,
Louisville, January 27, 1851.
